2nd EDITION

# UPDATE ON HEPATOCELLULAR CARCINOMA

ITALIAN-FRENCH SYMPOSIUM

*Accademia Lancisiana and Pontificia Università Urbaniana*  
Rome, May 8-9, 2014

President: Giuseppe Maria ETTORRE

Dear friends and colleagues,

It is a great pleasure and honour for me to invite you again to Rome to participate in the second edition of the Italian-French Symposium, to be held from the 8th to the 9th of May, 2014.

This year the theme will focus on Hepatocellular Carcinoma (HCC). Hepatic Surgery has a glorious history in France and Italy; and in recent years HCC has made many advancements in different specialties such as hepatology, radiology, surgery, pathology and oncology.

During my experience in Paris, I have been able to appreciate the French HCC evolving approach. Meanwhile, Italian surgical community has refined his standard of HCC surgical treatment. My wish would be to allow sharing of these new oncological perspectives.

It would be a pleasure to host in our city distinguished specialists from France and Italy to debate on different panels about the evolution of therapies for HCC.

Furthermore, I hope that you will have the opportunity to witness the beauty of Rome in Spring.

Best regards,  
**Giuseppe Maria Ettore**
